

ARA Seminar at the 2010 Texas Trophy Show

Integrating Graphics Suite X5 into Your Work Flow: A New Touch for Corel Users

Roy Brewer, Engraving Concepts

Respected ARA speaker, Roy Brewer, will highlight new features of the latest version of CorelDRAW. Roy will give you an overview of new programs in the Suite X5, featuring new content, such as pre sets, premium fonts, and the image sprayer tool, as well as showing improvements in file format, interface, tools, and Improved/fixed functionality/features, like HPGL and expanded ability with rectangle corners. Finally you will see sample projects showing the grayscale conversion tool for photographs and object docker.
